PROJECT

Wi-Attend

- Developed a mobile classroom attendance application using React Native, Expo, and JavaScript, utilizing Wi-Fi signal strength (RSSI) to verify student presence.
- Designed to minimize circumvention common with traditional methods like QR code scanning and manual roll calls.
- Conducted field tests at Naresuan University to validate system accuracy.

Personal Portfolio

- Built and deployed a fully responsive personal portfolio website using Next.js, JavaScript, and Tailwind CSS with Shadcn/UI components.
- Designed a clean, user-friendly interface to effectively showcase projects, skills, and educational background.

Plantventory

- Engineered a full-stack plant inventory management web application with Next.js, TypeScript, and Tailwind CSS with Shadcn/UI components.
- Implemented key features such as a comprehensive plant database, categorization, and a photo gallery.
- Constructed the backend using Drizzle ORM with a Neon PostgreSQL database and deployed on Vercel.
